WITH PROFESSIONAL FAMILY PHOTOS THAT ALWAYS SHINE

## FAMILIES AT HOME

Our Mountain West photographer will create a schedule of families in your neighbourhood and will text you a few days in advance to let you know when they will be arriving. You and your family can step outside, in front of your home or apartment building and our photographer will be standing near your driveway or street, at least 10 feet away. He/she will take some shots and leave. The photographer will interact with no one, and touch nothing during these sessions. Nothing will change hands!

After your session, we will email you a webcode to log in, view and order your photos online.
